2019.CSR2.1	Work ability, productivity and well-being at work	Number of workplaces or occupational health care units having participated in work ability promotion measures	2025, Q3	Completed
2019.CSR2.2	Reform of continuous learning	Entry into force of the Act on the Service Centre for Continuous Learning and Employment	2021, Q4	Fulfilled
2019.CSR2.2	Reform of continuous learning	Completion of a medium-term foresight model for labour and competence needs	2024, Q2	Fulfilled
2019.CSR2.2	Reform of continuous learning	Publication of the first call for applications to provide training to strengthen digital and green skills	2022, Q2	Fulfilled
2019.CSR2.2	Reform of continuous learning	Number of persons having participated in training to respond to changes in working life, including digitalisation and the green transition	2025, Q2	Completed
2019.CSR2.2	Reform of continuous learning	Number of career guidance professionals having participated in training to increase their level of expertise	2024, Q4	Completed
2019.CSR2.2	Digitalisation programme for continuous learning	Completion of the IT architecture for digital continuous learning services	2022, Q2	Fulfilled

2019.CSR2.2	Digitalisation programme for continuous learning	Share of operational new digital services for continuous learning	2025, Q4	On track
2019.CSR2.2	Improving the level of education by increasing student places in higher education	Increase of students' admissions in higher education institutions	2022, Q4	Fulfilled
2019.CSR2.2	Digitalisation of education in Åland	Digitalisation in tertiary education in Åland	2025, Q4	On track
2019.CSR2.3	Nordic Model of Employment Services	Entry into force of the Law on Public Employment and Business Services regulating the Nordic Employment Service Model for the jobseeker's service process	2022, Q2	Fulfilled
2019.CSR2.3	Nordic Model of Employment Services	Number of job search interviews conducted by public employment services	2024, Q2	Completed
2019.CSR2.3	Nordic Model of Employment Services	All five digital functionalities required by the Nordic employment service model are integrated into the public employment services' (TE-PES) information system and are operational	2024, Q3	Fulfilled
2019.CSR2.3	Multidisciplinary services for young people (Ohjaamo services)	Number of persons assigned for offering health, social and/or education services in the Ohjaamo One-Stop-Guidance centres	2025, Q4	On track
2019.CSR2.3	Work ability, productivity and well-being at work	Work ability teams for the provision of Work Ability Programme offered in new municipalities and the Individual Placement and Support model service offered in new welfare areas	2024, Q4	Completed
2019.CSR2.3	Work ability, productivity and well-being at work	Number of workplaces or occupational health care units having participated in work ability promotion measures	2025, Q3	Completed
2019.CSR3.1	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Micro-electronics projects are awarded	2023, Q4	Fulfilled
2019.CSR3.1	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Projects developing 6G, AI and quantum computing are awarded	2023, Q4	Fulfilled
2019.CSR3.1	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Project reports submitted	2025, Q4	On track

2019.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2019.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2019.CSR3.1	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2019.CSR3.1	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2019.CSR3.1	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2019.CSR3.1	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2019.CSR3.1	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2019.CSR3.1	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2019.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2019.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2019.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2019.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled

2019.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2019.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2019.CSR3.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2019.CSR3.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2019.CSR3.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2019.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2019.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled
2019.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2019.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2019.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled
2019.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track

2019.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2019.CSR3.2	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2019.CSR3.2	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2019.CSR3.2	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2019.CSR3.2	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2019.CSR3.2	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2019.CSR3.2	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2019.CSR3.2	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2019.CSR3.2	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2019.CSR3.2	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2019.CSR3.2	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2019.CSR3.2	RDI funding package promoting the green transition – accelerating key sectors and	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled

	strengthening competence (Business Finland)			
2019.CSR3.2	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2019.CSR3.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2019.CSR3.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2019.CSR3.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2019.CSR3.2	Key programmes for international growth	Publication of the first three calls for applications under key programmes for international growth	2022, Q2	Fulfilled
2019.CSR3.2	Key programmes for international growth	Award of grants for all projects under key programmes for international growth	2024, Q2	Fulfilled
2019.CSR3.2	Key programmes for international growth	Project reports submitted	2025, Q4	On track
2019.CSR3.2	Action plan to phase out fossil oil heating	Publication of the action plan for phasing out fossil oil heating	2024, Q2	Fulfilled
2019.CSR3.2	Low-carbon built environment programme	Publication of a first call for applications regarding support for a low-carbon built environment	2021, Q4	Fulfilled
2019.CSR3.2	Low-carbon built environment programme	Publication of additional calls for applications regarding support for a low-carbon built environment	2025, Q2	Completed
2019.CSR3.2	Low-carbon built environment programme	Funding award decisions issued, project reports submitted and programme report published	2026, Q2	On track
2019.CSR3.2	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled

2019.CSR3.2	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2019.CSR3.2	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track
2019.CSR3.2	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled
2019.CSR3.2	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
2019.CSR3.2	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2019.CSR3.2	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2019.CSR3.2	Reduction in the use of coal for energy by 2026	Reduction of 40% in the use of coal for energy by 2026 compared to 2019	2024, Q4	Completed
2019.CSR3.2	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2019.CSR3.2	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2019.CSR3.2	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2019.CSR3.2	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2019.CSR3.2	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2019.CSR3.2	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2019.CSR3.2	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled

2019.CSR3.2	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2019.CSR3.2	Strategic promotion of the circular economy and reform of the Waste Act	Entry into force of legal act(s)	2024, Q3	Completed
2019.CSR3.2	Strategic promotion of the circular economy and reform of the Waste Act	Adoption of the Government resolution on the implementation of the Strategic Programme for a Circular Economy	2021, Q2	Fulfilled
2019.CSR3.2	Strategic promotion of the circular economy and reform of the Waste Act	Stakeholders accepted to the Circular Economy Green Deal	2025, Q2	Completed
2019.CSR3.2	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled
2019.CSR3.2	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2019.CSR3.2	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2019.CSR3.2	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2019.CSR3.2	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low-carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2019.CSR3.2	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2019.CSR3.2	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2019.CSR3.2	Re-use and recycling of key materials and industrial side streams	Publication of the first call for applications for investment projects promoting the reuse of waste materials and side streams.	2021, Q4	Fulfilled
2019.CSR3.2	Re-use and recycling of key materials and industrial side streams	Award of all grants to the re-use and recycling projects	2023, Q3	Fulfilled

2019.CSR3.2	Re-use and recycling of key materials and industrial side streams	Project reports submitted	2026, Q2	On track
2019.CSR3.2	Reform of the Land Use and Building Act	Entry into force of legal act(s)	2026, Q1	On track
2019.CSR3.3	Transport and land use – Digirail project	Test laboratory on modelling equipment for the common European automatic train protection system (ERTMS) is operational	2022, Q4	Fulfilled
2019.CSR3.3	Transport and land use – Digirail project	Test track equipped with radio-based ERTMS	2024, Q4	Completed
2019.CSR3.3	Transport and land use – Digirail project	Commercial pilot track equipped with ERMTS	2026, Q2	On track
2019.CSR4.1	Development of the residential and commercial property information system	Adoption of legislation on extending the coverage of the residential and commercial property information system	2023, Q1	Fulfilled
2019.CSR4.1	Development of the residential and commercial property information system	Entry into force of legal acts	2023, Q1	Completed
2019.CSR4.1	Development of the residential and commercial property information system	The extension of the coverage of the residential and commercial property information system for housing company data.	2026, Q2	On track
2019.CSR4.2	Development of the residential and commercial property information system	Adoption of legislation on extending the coverage of the residential and commercial property information system	2023, Q1	Fulfilled
2019.CSR4.2	Development of the residential and commercial property information system	Entry into force of legal acts	2023, Q1	Completed
2019.CSR4.2	Development of the residential and commercial property information system	The extension of the coverage of the residential and commercial property information system for housing company data.	2026, Q2	On track
2020.CSR1.1	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the initial legal framework establishing welfare areas and reforming the social and health care and rescue services	2021, Q3	Fulfilled
2020.CSR1.1	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the additional legal framework completing the establishment of welfare areas and the reform of the social and health care and rescue services	2023, Q1	Fulfilled
2020.CSR1.1	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Operationalisation of regional welfare areas with the capacity to take responsibility for organising social, health and rescue services	2023, Q1	Fulfilled

2020.CSR1.1	Promoting the care guarantee and reducing the service backlog due to the COVID-19 pandemic	Share of non-urgent primary healthcare visits that reach the 7-day time limit for access to care	2025, Q4	On track
2020.CSR1.2	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the initial legal framework establishing welfare areas and reforming the social and health care and rescue services	2021, Q3	Fulfilled
2020.CSR1.2	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the additional legal framework completing the establishment of welfare areas and the reform of the social and health care and rescue services	2023, Q1	Fulfilled
2020.CSR1.2	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Operationalisation of regional welfare areas with the capacity to take responsibility for organising social, health and rescue services	2023, Q1	Fulfilled
2020.CSR1.2	Improving the level of education by increasing student places in higher education	Increase of students' admissions in higher education institutions	2022, Q4	Fulfilled
2020.CSR1.3	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the initial legal framework establishing welfare areas and reforming the social and health care and rescue services	2021, Q3	Fulfilled
2020.CSR1.3	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the additional legal framework completing the establishment of welfare areas and the reform of the social and health care and rescue services	2023, Q1	Fulfilled
2020.CSR1.3	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Operationalisation of regional welfare areas with the capacity to take responsibility for organising social, health and rescue services	2023, Q1	Fulfilled
2020.CSR1.3	Promoting the care guarantee and reducing the service backlog due to the COVID-19 pandemic	Share of non-urgent primary healthcare visits that reach the 7-day time limit for access to care	2025, Q4	On track
2020.CSR1.3	Prevention and early identification of health problems	Regional multi-sector service management models provided in all welfare areas	2024, Q4	Completed
2020.CSR1.3	Knowledge base to increase cost-effectiveness of social welfare and health care services	National real-time monitoring system of the care guarantee used in all welfare areas	2025, Q4	On track

2020.CSR1.3	Introducing digital innovations for social welfare and health care services	Increase of the share of population using social welfare and health care e-services	2025, Q4	On track
2020.CSR1.3	Introducing new digital healthcare information system in Åland	Share of public social and healthcare services having registered as users for the new healthcare information system	2026, Q2	On track
2020.CSR2.1	Nordic Model of Employment Services	Entry into force of the Law on Public Employment and Business Services regulating the Nordic Employment Service Model for the jobseeker's service process	2022, Q2	Fulfilled
2020.CSR2.1	Nordic Model of Employment Services	Number of job search interviews conducted by public employment services	2024, Q2	Completed
2020.CSR2.1	Nordic Model of Employment Services	All five digital functionalities required by the Nordic employment service model are integrated into the public employment services' (TE-PES) information system and are operational	2024, Q3	Fulfilled
2020.CSR2.1	Removal of additional days of unemployment allowance	Entry into force of legislative amendments to the Unemployment Security Act concerning the phasing out of additional days of unemployment security	2022, Q2	Fulfilled
2020.CSR2.1	Multidisciplinary services for young people (Ohjaamo services)	Number of persons assigned for offering health, social and/or education services in the Ohjaamo One-Stop-Guidance centres	2025, Q4	On track
2020.CSR2.1	Work ability, productivity and well-being at work	Work ability teams for the provision of Work Ability Programme offered in new municipalities and the Individual Placement and Support model service offered in new welfare areas	2024, Q4	Completed
2020.CSR2.1	Work ability, productivity and well-being at work	Number of workplaces or occupational health care units having participated in work ability promotion measures	2025, Q3	Completed
2020.CSR2.1	Reform of continuous learning	Entry into force of the Act on the Service Centre for Continuous Learning and Employment	2021, Q4	Fulfilled
2020.CSR2.1	Reform of continuous learning	Completion of a medium-term foresight model for labour and competence needs	2024, Q2	Fulfilled
2020.CSR2.1	Reform of continuous learning	Publication of the first call for applications to provide training to strengthen digital and green skills	2022, Q2	Fulfilled

2020.CSR2.1	Reform of continuous learning	Number of persons having participated in training to respond to changes in working life, including digitalisation and the green transition	2025, Q2	Completed
2020.CSR2.1	Reform of continuous learning	Number of career guidance professionals having participated in training to increase their level of expertise	2024, Q4	Completed
2020.CSR2.1	Improving the level of education by increasing student places in higher education	Increase of students' admissions in higher education institutions	2022, Q4	Fulfilled
2020.CSR2.1	Digitalisation of education in Åland	Digitalisation in tertiary education in Åland	2025, Q4	On track
2020.CSR2.1	Streamlining the work and education-based immigration process	Entry into force of legislative amendments to the Act related to students, researchers and trainees (719/2018)	2022, Q2	Fulfilled
2020.CSR2.1	Streamlining the work and education-based immigration process	Entry into force of legislative amendments to the Aliens Act (301/2004)	2023, Q1	Fulfilled
2020.CSR2.1	Streamlining the work and education-based immigration process	Decrease in the average number of days for processing residence permit applications based on work and education	2024, Q4	Completed
2020.CSR2.1	Streamlining the work and education-based immigration process	Establishing a fast-track process for specialists, growth entrepreneurs and their accompanying family members	2022, Q4	Fulfilled
2020.CSR2.2	Nordic Model of Employment Services	Entry into force of the Law on Public Employment and Business Services regulating the Nordic Employment Service Model for the jobseeker's service process	2022, Q2	Fulfilled
2020.CSR2.2	Nordic Model of Employment Services	Number of job search interviews conducted by public employment services	2024, Q2	Completed
2020.CSR2.2	Nordic Model of Employment Services	All five digital functionalities required by the Nordic employment service model are integrated into the public employment services' (TE-PES) information system and are operational	2024, Q3	Fulfilled
2020.CSR2.2	Multidisciplinary services for young people (Ohjaamo services)	Number of persons assigned for offering health, social and/or education services in the Ohjaamo One-Stop-Guidance centres	2025, Q4	On track
2020.CSR2.2	Work ability, productivity and well-being at work	Work ability teams for the provision of Work Ability Programme offered in new municipalities and the Individual Placement and Support model service offered in new welfare areas	2024, Q4	Completed

2020.CSR2.2	Work ability, productivity and well-being at work	Number of workplaces or occupational health care units having participated in work ability promotion measures	2025, Q3	Completed
2020.CSR3.4	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2020.CSR3.4	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2020.CSR3.4	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2020.CSR3.4	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2020.CSR3.4	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2020.CSR3.4	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2020.CSR3.4	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2020.CSR3.4	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2020.CSR3.4	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2020.CSR3.4	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2020.CSR3.4	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled

2020.CSR3.4	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2020.CSR3.4	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2020.CSR3.4	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2020.CSR3.4	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2020.CSR3.4	Action plan to phase out fossil oil heating	Publication of the action plan for phasing out fossil oil heating	2024, Q2	Fulfilled
2020.CSR3.4	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2020.CSR3.4	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2020.CSR3.4	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track
2020.CSR3.4	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled
2020.CSR3.4	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
2020.CSR3.4	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled

2020.CSR3.4	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2020.CSR3.4	Reduction in the use of coal for energy by 2026	Reduction of 40% in the use of coal for energy by 2026 compared to 2019	2024, Q4	Completed
2020.CSR3.4	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2020.CSR3.4	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2020.CSR3.4	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2020.CSR3.4	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2020.CSR3.4	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2020.CSR3.4	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2020.CSR3.4	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled
2020.CSR3.4	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2020.CSR3.4	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled
2020.CSR3.4	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2020.CSR3.4	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2020.CSR3.4	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2020.CSR3.4	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low-carbonisation of industrial processes aimed at reducing	2021, Q4	Fulfilled

		CO2 emissions from industry		
2020.CSR3.4	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2020.CSR3.4	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2020.CSR3.5	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2020.CSR3.5	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2020.CSR3.5	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2020.CSR3.5	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled
2020.CSR3.5	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2020.CSR3.5	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2020.CSR3.5	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled
2020.CSR3.5	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track
2020.CSR3.5	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled

2020.CSR3.5	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2020.CSR3.5	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2020.CSR3.5	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2020.CSR3.5	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2020.CSR3.5	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2020.CSR3.5	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2020.CSR3.5	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2020.CSR3.5	Transport and land use – Digirail project	Test laboratory on modelling equipment for the common European automatic train protection system (ERTMS) is operational	2022, Q4	Fulfilled
2020.CSR3.5	Transport and land use – Digirail project	Test track equipped with radio-based ERTMS	2024, Q4	Completed
2020.CSR3.5	Transport and land use – Digirail project	Commercial pilot track equipped with ERTMS	2026, Q2	On track
2020.CSR3.5	Digital connectivity – Developing the quality and availability of communication networks	Entry into force of legislative amendments to the broadband aid legislation	2022, Q1	Fulfilled
2020.CSR3.5	Digital connectivity – Developing the quality and availability of communication networks	High-speed (100/100 Mbit/s) broadband projects	2026, Q2	On track
2020.CSR3.5	Digital economy – Real-time economy (RTE) programme	Minimum Viable Ecosystem is created and operational	2022, Q4	Fulfilled
2020.CSR3.5	Digital economy – Real-time economy (RTE) programme	Report on the exchange of digital business information	2024, Q4	Completed

2020.CSR3.6	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Micro-electronics projects are awarded	2023, Q4	Fulfilled
2020.CSR3.6	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Projects developing 6G, AI and quantum computing are awarded	2023, Q4	Fulfilled
2020.CSR3.6	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Project reports submitted	2025, Q4	On track
2020.CSR3.6	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2020.CSR3.6	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2020.CSR3.6	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2020.CSR3.6	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2020.CSR3.6	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2020.CSR3.6	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2020.CSR3.6	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2020.CSR3.6	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2020.CSR3.6	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2020.CSR3.6	RDI funding package promoting the green transition – Accelerating key sectors and	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled

	strengthening competence (Academy of Finland)			
2020.CSR3.6	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2020.CSR3.6	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2020.CSR3.6	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2020.CSR3.6	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2020.CSR3.6	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2020.CSR3.6	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2020.CSR3.6	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2020.CSR3.6	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2020.CSR3.6	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled

2020.CSR3.6	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2020.CSR3.6	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2020.CSR3.6	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled
2020.CSR3.6	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track
2020.CSR3.6	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2020.CSR4.1	Ensuring effective supervision and enforcement of the prevention of money laundering	Entry into force of legal acts	2025, Q3	Completed
2020.CSR4.1	Ensuring effective supervision and enforcement of the prevention of money laundering	Final report by the Steering group	2026, Q2	On track
2022.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2022.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2022.CSR3.1	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2022.CSR3.1	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2022.CSR3.1	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2022.CSR3.1	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled

2022.CSR3.1	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2022.CSR3.1	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2022.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2022.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2022.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2022.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2022.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2022.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2022.CSR3.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled

2022.CSR3.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2022.CSR3.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2022.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2022.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled
2022.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2022.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2022.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled
2022.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track
2022.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2022.CSR3.1	Action plan to phase out fossil oil heating	Publication of the action plan for phasing out fossil oil heating	2024, Q2	Fulfilled
2022.CSR3.1	Low-carbon built environment programme	Publication of a first call for applications regarding support for a low-carbon built environment	2021, Q4	Fulfilled
2022.CSR3.1	Low-carbon built environment programme	Publication of additional calls for applications regarding support for a low-carbon built environment	2025, Q2	Completed
2022.CSR3.1	Low-carbon built environment programme	Funding award decisions issued, project reports submitted and programme report published	2026, Q2	On track

2022.CSR3.1	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2022.CSR3.1	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2022.CSR3.1	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track
2022.CSR3.1	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled
2022.CSR3.1	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
2022.CSR3.1	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2022.CSR3.1	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2022.CSR3.1	Reduction in the use of coal for energy by 2026	Reduction of 40% in the use of coal for energy by 2026 compared to 2019	2024, Q4	Completed
2022.CSR3.1	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2022.CSR3.1	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2022.CSR3.1	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2022.CSR3.1	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2022.CSR3.1	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled

2022.CSR3.1	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2022.CSR3.1	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled
2022.CSR3.1	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2022.CSR3.1	Strategic promotion of the circular economy and reform of the Waste Act	Entry into force of legal act(s)	2024, Q3	Completed
2022.CSR3.1	Strategic promotion of the circular economy and reform of the Waste Act	Adoption of the Government resolution on the implementation of the Strategic Programme for a Circular Economy	2021, Q2	Fulfilled
2022.CSR3.1	Strategic promotion of the circular economy and reform of the Waste Act	Stakeholders accepted to the Circular Economy Green Deal	2025, Q2	Completed
2022.CSR3.1	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled
2022.CSR3.1	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2022.CSR3.1	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2022.CSR3.1	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2022.CSR3.1	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low-carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2022.CSR3.1	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2022.CSR3.1	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track

2022.CSR3.1	Re-use and recycling of key materials and industrial side streams	Publication of the first call for applications for investment projects promoting the reuse of waste materials and side streams.	2021, Q4	Fulfilled
2022.CSR3.1	Re-use and recycling of key materials and industrial side streams	Award of all grants to the re- use and recycling projects	2023, Q3	Fulfilled
2022.CSR3.1	Re-use and recycling of key materials and industrial side streams	Project reports submitted	2026, Q2	On track
2022.CSR3.1	Reform of the Land Use and Building Act	Entry into force of legal act(s)	2026, Q1	On track
2022.CSR3.1	Transport and land use – Digirail project	Test laboratory on modelling equipment for the common European automatic train protection system (ERTMS) is operational	2022, Q4	Fulfilled
2022.CSR3.1	Transport and land use – Digirail project	Test track equipped with radio-based ERTMS	2024, Q4	Completed
2022.CSR3.1	Transport and land use – Digirail project	Commercial pilot track equipped with ERMTS	2026, Q2	On track
2022.CSR3.2	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2022.CSR3.2	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2022.CSR3.2	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2022.CSR3.2	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2022.CSR3.2	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2022.CSR3.2	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2022.CSR3.3	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2022.CSR3.3	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2022.CSR3.3	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2022.CSR3.3	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled

2022.CSR3.3	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2022.CSR3.3	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2022.CSR3.3	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2022.CSR3.3	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2022.CSR3.3	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2022.CSR3.3	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2022.CSR3.3	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2022.CSR3.3	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2022.CSR3.3	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled

2022.CSR3.3	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2022.CSR3.3	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2022.CSR3.3	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled
2022.CSR3.3	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2022.CSR3.3	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2022.CSR3.3	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled
2022.CSR3.3	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track
2022.CSR3.3	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2022.CSR3.3	Key programmes for international growth	Publication of the first three calls for applications under key programmes for international growth	2022, Q2	Fulfilled
2022.CSR3.3	Key programmes for international growth	Award of grants for all projects under key programmes for international growth	2024, Q2	Fulfilled
2022.CSR3.3	Key programmes for international growth	Project reports submitted	2025, Q4	On track
2022.CSR3.3	Low-carbon built environment programme	Publication of a first call for applications regarding support for a low-carbon built environment	2021, Q4	Fulfilled
2022.CSR3.3	Low-carbon built environment programme	Publication of additional calls for applications regarding support for a low-carbon built environment	2025, Q2	Completed

2022.CSR3.3	Low-carbon built environment programme	Funding award decisions issued, project reports submitted and programme report published	2026, Q2	On track
2022.CSR3.3	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled
2022.CSR3.3	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2022.CSR3.3	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled
2022.CSR3.3	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2022.CSR3.3	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2022.CSR3.3	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2022.CSR3.3	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low- carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2022.CSR3.3	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2022.CSR3.3	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2022.CSR3.3	Re-use and recycling of key materials and industrial side streams	Publication of the first call for applications for investment projects promoting the reuse of waste materials and side streams.	2021, Q4	Fulfilled
2022.CSR3.3	Re-use and recycling of key materials and industrial side streams	Award of all grants to the re- use and recycling projects	2023, Q3	Fulfilled
2022.CSR3.3	Re-use and recycling of key materials and industrial side streams	Project reports submitted	2026, Q2	On track
2022.CSR3.4	Key programmes for international growth	Publication of the first three calls for applications under key programmes for international growth	2022, Q2	Fulfilled

2022.CSR3.4	Key programmes for international growth	Award of grants for all projects under key programmes for international growth	2024, Q2	Fulfilled
2022.CSR3.4	Key programmes for international growth	Project reports submitted	2025, Q4	On track
2022.CSR3.4	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2022.CSR3.4	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2022.CSR3.4	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track
2022.CSR3.4	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled
2022.CSR3.4	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
2022.CSR3.4	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2022.CSR3.4	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2022.CSR3.4	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2022.CSR3.4	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2022.CSR3.4	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track

2022.CSR3.4	Transport and land use – Digirail project	Test laboratory on modelling equipment for the common European automatic train protection system (ERTMS) is operational	2022, Q4	Fulfilled
2022.CSR3.4	Transport and land use – Digirail project	Test track equipped with radio-based ERTMS	2024, Q4	Completed
2022.CSR3.4	Transport and land use – Digirail project	Commercial pilot track equipped with ERTMS	2026, Q2	On track
2022.CSR3.5	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2022.CSR3.5	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2022.CSR3.5	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2022.CSR3.5	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2022.CSR3.5	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2022.CSR3.5	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track
2022.CSR3.5	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2022.CSR3.5	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2022.CSR3.5	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2022.CSR3.5	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2022.CSR3.5	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2022.CSR3.5	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2022.CSR3.5	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track

2023.CSR3.1	Reform of continuous learning	Entry into force of the Act on the Service Centre for Continuous Learning and Employment	2021, Q4	Fulfilled
2023.CSR3.1	Reform of continuous learning	Completion of a medium-term foresight model for labour and competence needs	2024, Q2	Fulfilled
2023.CSR3.1	Reform of continuous learning	Publication of the first call for applications to provide training to strengthen digital and green skills	2022, Q2	Fulfilled
2023.CSR3.1	Reform of continuous learning	Number of persons having participated in training to respond to changes in working life, including digitalisation and the green transition	2025, Q2	Completed
2023.CSR3.1	Reform of continuous learning	Number of career guidance professionals having participated in training to increase their level of expertise	2024, Q4	Completed
2023.CSR3.1	Digitalisation programme for continuous learning	Completion of the IT architecture for digital continuous learning services	2022, Q2	Fulfilled
2023.CSR3.1	Digitalisation programme for continuous learning	Share of operational new digital services for continuous learning	2025, Q4	On track
2023.CSR3.1	Improving the level of education by increasing student places in higher education	Increase of students' admissions in higher education institutions	2022, Q4	Fulfilled
2023.CSR3.1	Digitalisation of education in Åland	Digitalisation in tertiary education in Åland	2025, Q4	On track
2023.CSR4.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2023.CSR4.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2023.CSR4.1	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2023.CSR4.1	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2023.CSR4.1	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.1	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled

2023.CSR4.1	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2023.CSR4.1	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2023.CSR4.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2023.CSR4.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2023.CSR4.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2023.CSR4.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2023.CSR4.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2023.CSR4.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2023.CSR4.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled

2023.CSR4.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2023.CSR4.1	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2023.CSR4.1	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2023.CSR4.1	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled
2023.CSR4.1	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2023.CSR4.1	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2023.CSR4.1	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled
2023.CSR4.1	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track
2023.CSR4.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2023.CSR4.1	Action plan to phase out fossil oil heating	Publication of the action plan for phasing out fossil oil heating	2024, Q2	Fulfilled
2023.CSR4.1	Low-carbon built environment programme	Publication of a first call for applications regarding support for a low-carbon built environment	2021, Q4	Fulfilled
2023.CSR4.1	Low-carbon built environment programme	Publication of additional calls for applications regarding support for a low-carbon built environment	2025, Q2	Completed

2023.CSR4.1	Low-carbon built environment programme	Funding award decisions issued, project reports submitted and programme report published	2026, Q2	On track
2023.CSR4.1	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2023.CSR4.1	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2023.CSR4.1	Reduction in the use of coal for energy by 2026	Reduction of 40% in the use of coal for energy by 2026 compared to 2019	2024, Q4	Completed
2023.CSR4.1	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2023.CSR4.1	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2023.CSR4.1	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2023.CSR4.1	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.1	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2023.CSR4.1	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2023.CSR4.1	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled
2023.CSR4.1	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2023.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled
2023.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2023.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track

2023.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2023.CSR4.1	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low- carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2023.CSR4.1	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2023.CSR4.1	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.1	Re-use and recycling of key materials and industrial side streams	Publication of the first call for applications for investment projects promoting the reuse of waste materials and side streams.	2021, Q4	Fulfilled
2023.CSR4.1	Re-use and recycling of key materials and industrial side streams	Award of all grants to the re- use and recycling projects	2023, Q3	Fulfilled
2023.CSR4.1	Re-use and recycling of key materials and industrial side streams	Project reports submitted	2026, Q2	On track
2023.CSR4.1	Reform of the Land Use and Building Act	Entry into force of legal act(s)	2026, Q1	On track
2023.CSR4.1	R&D for the green transition	Inspection report issued	2026, Q2	On track
2023.CSR4.1	R&D for the green transition	Assignment of researchers to REPowerEU-related research and development activities	2024, Q4	Completed
2023.CSR4.1	R&D for the green transition	Selection of doctoral students in the LUKE Doctoral School programme	2024, Q2	Fulfilled
2023.CSR4.1	R&D for the green transition	Publication of clean energy roadmaps	2026, Q2	On track
2023.CSR4.1	Offshore wind power in Åland	Delivery of reports	2026, Q2	On track
2023.CSR4.1	Green Transition Permitting	Conclusion of environmental impact assessments	2025, Q1	Delayed
2023.CSR4.1	Green Transition Permitting	Entry into force of the legal acts establishing the new environmental permit procedure	2025, Q4	On track
2023.CSR4.1	Green Transition Permitting	Digital services for environmental permitting	2026, Q2	On track
2023.CSR4.1	Investments for clean transition	Launch of a call for applications for clean transition projects	2024, Q1	Fulfilled
2023.CSR4.1	Investments for clean transition	Award of all grants for clean transition projects	2024, Q4	Fulfilled
2023.CSR4.1	Investments for clean transition	Project completion notices or project reports submitted	2026, Q2	On track

2023.CSR4.2	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2023.CSR4.2	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2023.CSR4.2	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.2	Reduction in the use of coal for energy by 2026	Reduction of 40% in the use of coal for energy by 2026 compared to 2019	2024, Q4	Completed
2023.CSR4.2	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2023.CSR4.2	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2023.CSR4.2	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2023.CSR4.2	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.2	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2023.CSR4.2	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track

2023.CSR4.3	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2023.CSR4.3	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2023.CSR4.3	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track

2023.CSR4.3	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low- carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2023.CSR4.3	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2023.CSR4.3	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.3	Re-use and recycling of key materials and industrial side streams	Publication of the first call for applications for investment projects promoting the reuse of waste materials and side streams.	2021, Q4	Fulfilled
2023.CSR4.3	Re-use and recycling of key materials and industrial side streams	Award of all grants to the re- use and recycling projects	2023, Q3	Fulfilled
2023.CSR4.3	Re-use and recycling of key materials and industrial side streams	Project reports submitted	2026, Q2	On track
2023.CSR4.3	Investments for clean transition	Launch of a call for applications for clean transition projects	2024, Q1	Fulfilled
2023.CSR4.3	Investments for clean transition	Award of all grants for clean transition projects	2024, Q4	Fulfilled
2023.CSR4.3	Investments for clean transition	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.4	Key programmes for international growth	Publication of the first three calls for applications under key programmes for international growth	2022, Q2	Fulfilled
2023.CSR4.4	Key programmes for international growth	Award of grants for all projects under key programmes for international growth	2024, Q2	Fulfilled
2023.CSR4.4	Key programmes for international growth	Project reports submitted	2025, Q4	On track
2023.CSR4.4	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2023.CSR4.4	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2023.CSR4.4	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track

2023.CSR4.4	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled
2023.CSR4.4	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
2023.CSR4.5	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2023.CSR4.5	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2023.CSR4.5	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2023.CSR4.6	Reform of continuous learning	Entry into force of the Act on the Service Centre for Continuous Learning and Employment	2021, Q4	Fulfilled
2023.CSR4.6	Reform of continuous learning	Completion of a medium-term foresight model for labour and competence needs	2024, Q2	Fulfilled
2023.CSR4.6	Reform of continuous learning	Publication of the first call for applications to provide training to strengthen digital and green skills	2022, Q2	Fulfilled
2023.CSR4.6	Reform of continuous learning	Number of persons having participated in training to respond to changes in working life, including digitalisation and the green transition	2025, Q2	Completed
2023.CSR4.6	Reform of continuous learning	Number of career guidance professionals having participated in training to increase their level of expertise	2024, Q4	Completed
2023.CSR4.6	R&D for the green transition	Inspection report issued	2026, Q2	On track
2023.CSR4.6	R&D for the green transition	Assignment of researchers to REPowerEU-related research and development activities	2024, Q4	Completed
2023.CSR4.6	R&D for the green transition	Selection of doctoral students in the LUKE Doctoral School programme	2024, Q2	Fulfilled
2023.CSR4.6	R&D for the green transition	Publication of clean energy roadmaps	2026, Q2	On track
2024.CSR3.1	Reform of continuous learning	Entry into force of the Act on the Service Centre for Continuous Learning and Employment	2021, Q4	Fulfilled

2024.CSR3.1	Reform of continuous learning	Completion of a medium-term foresight model for labour and competence needs	2024, Q2	Fulfilled
2024.CSR3.1	Reform of continuous learning	Publication of the first call for applications to provide training to strengthen digital and green skills	2022, Q2	Fulfilled
2024.CSR3.1	Reform of continuous learning	Number of persons having participated in training to respond to changes in working life, including digitalisation and the green transition	2025, Q2	Completed
2024.CSR3.1	Reform of continuous learning	Number of career guidance professionals having participated in training to increase their level of expertise	2024, Q4	Completed
2024.CSR3.1	Digitalisation programme for continuous learning	Completion of the IT architecture for digital continuous learning services	2022, Q2	Fulfilled
2024.CSR3.1	Digitalisation programme for continuous learning	Share of operational new digital services for continuous learning	2025, Q4	On track
2024.CSR3.1	Improving the level of education by increasing student places in higher education	Increase of students' admissions in higher education institutions	2022, Q4	Fulfilled
2024.CSR3.1	Digitalisation of education in Åland	Digitalisation in tertiary education in Åland	2025, Q4	On track
2024.CSR3.1	R&D for the green transition	Inspection report issued	2026, Q2	On track
2024.CSR3.1	R&D for the green transition	Assignment of researchers to REPowerEU-related research and development activities	2024, Q4	Completed
2024.CSR3.1	R&D for the green transition	Selection of doctoral students in the LUKE Doctoral School programme	2024, Q2	Fulfilled
2024.CSR3.1	R&D for the green transition	Publication of clean energy roadmaps	2026, Q2	On track
2024.CSR3.2	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the initial legal framework establishing welfare areas and reforming the social and health care and rescue services	2021, Q3	Fulfilled
2024.CSR3.2	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Entry into force of the additional legal framework completing the establishment of welfare areas and the reform of the social and health care and rescue services	2023, Q1	Fulfilled

2024.CSR3.2	Preparation of the social welfare and health care reform in support of implementing the care guarantee	Operationalisation of regional welfare areas with the capacity to take responsibility for organising social, health and rescue services	2023, Q1	Fulfilled
2024.CSR3.2	Promoting the care guarantee and reducing the service backlog due to the COVID-19 pandemic	Share of non-urgent primary healthcare visits that reach the 7-day time limit for access to care	2025, Q4	On track
2024.CSR3.2	Prevention and early identification of health problems	Regional multi-sector service management models provided in all welfare areas	2024, Q4	Completed
2024.CSR3.2	Knowledge base to increase cost-effectiveness of social welfare and health care services	National real-time monitoring system of the care guarantee used in all welfare areas	2025, Q4	On track
2024.CSR3.2	Introducing digital innovations for social welfare and health care services	Increase of the share of population using social welfare and health care e-services	2025, Q4	On track
2025.CSR1.6	Nordic Model of Employment Services	Entry into force of the Law on Public Employment and Business Services regulating the Nordic Employment Service Model for the jobseeker's service process	2022, Q2	Fulfilled
2025.CSR1.6	Nordic Model of Employment Services	Number of job search interviews conducted by public employment services	2024, Q2	Completed
2025.CSR1.6	Nordic Model of Employment Services	All five digital functionalities required by the Nordic employment service model are integrated into the public employment services' (TE-PES) information system and are operational	2024, Q3	Fulfilled
2025.CSR1.6	Removal of additional days of unemployment allowance	Entry into force of legislative amendments to the Unemployment Security Act concerning the phasing out of additional days of unemployment security	2022, Q2	Fulfilled
2025.CSR1.7	Multidisciplinary services for young people (Ohjaamo services)	Number of persons assigned for offering health, social and/or education services in the Ohjaamo One-Stop-Guidance centres	2025, Q4	On track
2025.CSR1.7	Work ability, productivity and well-being at work	Work ability teams for the provision of Work Ability Programme offered in new municipalities and the Individual Placement and Support model service offered in new welfare areas	2024, Q4	Completed

2025.CSR1.7	Work ability, productivity and well-being at work	Number of workplaces or occupational health care units having participated in work ability promotion measures	2025, Q3	Completed
2025.CSR3.1	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Micro-electronics projects are awarded	2023, Q4	Fulfilled
2025.CSR3.1	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Projects developing 6G, AI and quantum computing are awarded	2023, Q4	Fulfilled
2025.CSR3.1	Accelerating key technologies (microelectronics, 6G, artificial intelligence and quantum computing)	Project reports submitted	2025, Q4	On track
2025.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2025.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2025.CSR3.1	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2025.CSR3.1	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2025.CSR3.1	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2025.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Publication by the Academy of Finland of a first call for applications for research projects aiming to increase competences in key sectors	2021, Q4	Fulfilled
2025.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Award by the Academy of Finland of grants for research projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled

2025.CSR3.1	RDI funding package promoting the green transition – Accelerating key sectors and strengthening competence (Academy of Finland)	Project reports submitted	2026, Q2	On track
2025.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2025.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2025.CSR3.1	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2025.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Publication of a call for applications for the renewal and development of local research infrastructures	2022, Q2	Fulfilled
2025.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Award of grants for the renewal and development of local research infrastructures	2022, Q4	Fulfilled
2025.CSR3.1	Promoting innovation and research infrastructure – Local research infrastructures	Project reports submitted	2026, Q2	On track
2025.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Publication of a call for applications for the renewal and development of national research infrastructures	2021, Q2	Fulfilled
2025.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Award of grants for the renewal and development of national research infrastructures	2022, Q2	Fulfilled

2025.CSR3.1	Promoting innovation and research infrastructure – National research infrastructures	Project reports submitted	2026, Q2	On track
2025.CSR3.1	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2025.CSR3.1	Key programmes for international growth	Publication of the first three calls for applications under key programmes for international growth	2022, Q2	Fulfilled
2025.CSR3.1	Key programmes for international growth	Award of grants for all projects under key programmes for international growth	2024, Q2	Fulfilled
2025.CSR3.1	Key programmes for international growth	Project reports submitted	2025, Q4	On track
2025.CSR3.1	R&D for the green transition	Inspection report issued	2026, Q2	On track
2025.CSR3.1	R&D for the green transition	Assignment of researchers to REPowerEU-related research and development activities	2024, Q4	Completed
2025.CSR3.1	R&D for the green transition	Selection of doctoral students in the LUKE Doctoral School programme	2024, Q2	Fulfilled
2025.CSR3.1	R&D for the green transition	Publication of clean energy roadmaps	2026, Q2	On track
2025.CSR3.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2025.CSR3.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2025.CSR3.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2025.CSR3.2	Growth acceleration programme for small enterprises	Publication of the call for applications for support to companies' internationalisation capabilities	2022, Q2	Fulfilled
2025.CSR3.2	Growth acceleration programme for small enterprises	Project reports submitted	2026, Q2	On track

2025.CSR3.2	Support for the renewal of the cultural and creative sectors	Publication of two calls for applications for projects supporting the renewal of cultural and creative sectors, respectively for development aid and pilot aid	2021, Q4	Fulfilled
2025.CSR3.2	Support for the renewal of the cultural and creative sectors	Publication of additional calls for applications	2024, Q4	Completed
2025.CSR3.2	Support for the renewal of the cultural and creative sectors	Project reports submitted	2025, Q4	On track
2025.CSR3.3	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2025.CSR3.3	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled
2025.CSR3.3	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2025.CSR4.1	Investments in new energy technologies	Publication of the first call for applications for investments in new energy technologies	2021, Q4	Fulfilled
2025.CSR4.1	Investments in new energy technologies	Award of all grants for energy technology investments	2024, Q4	Fulfilled
2025.CSR4.1	Investments in new energy technologies	Project completion notices or project reports submitted	2026, Q2	On track
2025.CSR4.1	Action plan to phase out fossil oil heating	Publication of the action plan for phasing out fossil oil heating	2024, Q2	Fulfilled
2025.CSR4.1	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2025.CSR4.1	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2025.CSR4.1	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track

2025.CSR4.1	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled
2025.CSR4.1	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
2025.CSR4.1	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Publication of the calls for applications to improve distribution infrastructure for electric and hydrogen vehicles	2022, Q4	Fulfilled
2025.CSR4.1	Public recharging and refuelling infrastructure for transport electricity and hydrogen	Budget committed for electric vehicles chargers and/or hydrogen refuelling points	2025, Q4	Not completed
2025.CSR4.1	Reduction in the use of coal for energy by 2026	Reduction of 40% in the use of coal for energy by 2026 compared to 2019	2024, Q4	Completed
2025.CSR4.1	Reform of energy taxation to take account of technological developments	Entry into force of the Act on Excise Duty on Electricity and Certain Fuels	2021, Q1	Fulfilled
2025.CSR4.1	Energy infrastructure investments	Publication of the first call for applications for energy infrastructure projects	2021, Q4	Fulfilled
2025.CSR4.1	Energy infrastructure investments	Publication of additional calls for applications for energy infrastructure projects	2024, Q4	Completed
2025.CSR4.1	Energy infrastructure investments	Project completion notices or project reports submitted	2026, Q2	On track
2025.CSR4.1	Investment and reform package in Åland	Publication of the first call for applications for investment in renewable energy in Åland	2022, Q4	Fulfilled
2025.CSR4.1	Investment and reform package in Åland	Project reports submitted	2026, Q2	On track
2025.CSR4.1	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled
2025.CSR4.1	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2025.CSR4.1	Strategic promotion of the circular economy and reform of the Waste Act	Entry into force of legal act(s)	2024, Q3	Completed

2025.CSR4.1	Strategic promotion of the circular economy and reform of the Waste Act	Adoption of the Government resolution on the implementation of the Strategic Programme for a Circular Economy	2021, Q2	Fulfilled
2025.CSR4.1	Strategic promotion of the circular economy and reform of the Waste Act	Stakeholders accepted to the Circular Economy Green Deal	2025, Q2	Completed
2025.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled
2025.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2025.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2025.CSR4.1	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2025.CSR4.1	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low- carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2025.CSR4.1	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2025.CSR4.1	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2025.CSR4.1	Re-use and recycling of key materials and industrial side streams	Publication of the first call for applications for investment projects promoting the reuse of waste materials and side streams.	2021, Q4	Fulfilled
2025.CSR4.1	Re-use and recycling of key materials and industrial side streams	Award of all grants to the re- use and recycling projects	2023, Q3	Fulfilled
2025.CSR4.1	Re-use and recycling of key materials and industrial side streams	Project reports submitted	2026, Q2	On track
2025.CSR4.1	Reform of the Land Use and Building Act	Entry into force of legal act(s)	2026, Q1	On track
2025.CSR4.1	R&D for the green transition	Inspection report issued	2026, Q2	On track

2025.CSR4.1	R&D for the green transition	Assignment of researchers to REPowerEU-related research and development activities	2024, Q4	Completed
2025.CSR4.1	R&D for the green transition	Selection of doctoral students in the LUKE Doctoral School programme	2024, Q2	Fulfilled
2025.CSR4.1	R&D for the green transition	Publication of clean energy roadmaps	2026, Q2	On track
2025.CSR4.1	Offshore wind power in Åland	Delivery of reports	2026, Q2	On track
2025.CSR4.1	Green Transition Permitting	Conclusion of environmental impact assessments	2025, Q1	Delayed
2025.CSR4.1	Green Transition Permitting	Entry into force of the legal acts establishing the new environmental permit procedure	2025, Q4	On track
2025.CSR4.1	Green Transition Permitting	Digital services for environmental permitting	2026, Q2	On track
2025.CSR4.1	Investments for clean transition	Launch of a call for applications for clean transition projects	2024, Q1	Fulfilled
2025.CSR4.1	Investments for clean transition	Award of all grants for clean transition projects	2024, Q4	Fulfilled
2025.CSR4.1	Investments for clean transition	Project completion notices or project reports submitted	2026, Q2	On track
2025.CSR4.2	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Award of grants for the development of innovation infrastructures	2023, Q2	Fulfilled
2025.CSR4.2	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Project reports submitted	2025, Q4	On track
2025.CSR4.2	RDI funding package promoting the green transition – Leading companies	Publication of a call for applications for leading companies' projects	2022, Q2	Fulfilled
2025.CSR4.2	RDI funding package promoting the green transition – Leading companies	Award of grants for leading companies' projects	2023, Q2	Fulfilled
2025.CSR4.2	RDI funding package promoting the green transition – Leading companies	Project reports submitted	2026, Q2	On track
2025.CSR4.2	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Publication by Business Finland of a call for applications for RDI projects aiming at increasing competences in key sectors	2022, Q2	Fulfilled
2025.CSR4.2	RDI funding package promoting the green transition – accelerating key sectors and	Award by Business Finland of grants for RDI projects aiming at increasing competences in key sectors	2023, Q2	Fulfilled

	strengthening competence (Business Finland)			
2025.CSR4.2	RDI funding package promoting the green transition – accelerating key sectors and strengthening competence (Business Finland)	Project reports submitted	2025, Q4	On track
2025.CSR4.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Publication by Business Finland of a call for applications for RDI projects supporting innovative growth companies	2022, Q2	Fulfilled
2025.CSR4.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Award of grants for support to innovative growth companies	2023, Q2	Fulfilled
2025.CSR4.2	RDI funding package supporting the green transition – Supporting innovative growth companies	Project reports submitted	2025, Q4	On track
2025.CSR4.2	Promoting innovation and research infrastructure – Competitive funding for innovation infrastructures	Publication of a call for applications for development of innovation infrastructures	2022, Q1	Fulfilled
2025.CSR4.2	Low-carbon built environment programme	Publication of a first call for applications regarding support for a low-carbon built environment	2021, Q4	Fulfilled
2025.CSR4.2	Low-carbon built environment programme	Publication of additional calls for applications regarding support for a low-carbon built environment	2025, Q2	Completed
2025.CSR4.2	Low-carbon built environment programme	Funding award decisions issued, project reports submitted and programme report published	2026, Q2	On track
2025.CSR4.2	Reform of the Climate Act and low-carbon industrialisation	Entry into force of the revised Climate Act	2022, Q3	Fulfilled
2025.CSR4.2	Reform of the Climate Act and low-carbon industrialisation	Publication of the updated climate and energy strategy, medium-term climate change policy plan and sector-specific low-carbon roadmaps	2025, Q4	On track
2025.CSR4.2	Low-carbon hydrogen and carbon capture and utilisation	Publication of the first national call for applications for the production and utilisation of low-emission hydrogen as well as carbon dioxide capture and utilisation	2021, Q4	Fulfilled

2025.CSR4.2	Low-carbon hydrogen and carbon capture and utilisation	Implementing Agreement	2025, Q4	Completed
2025.CSR4.2	Low-carbon hydrogen and carbon capture and utilisation	Legal agreements signed with final beneficiaries	2026, Q2	On track
2025.CSR4.2	Low-carbon hydrogen and carbon capture and utilisation	Ministry has completed the investment	2026, Q2	On track
2025.CSR4.2	Direct electrification and decarbonisation of industrial processes	Publication of the first call for proposals for direct electrification and low- carbonisation of industrial processes aimed at reducing CO2 emissions from industry	2021, Q4	Fulfilled
2025.CSR4.2	Direct electrification and decarbonisation of industrial processes	Award of all grants for direct electrification and low-carbon industrial processes projects	2024, Q4	Fulfilled
2025.CSR4.2	Direct electrification and decarbonisation of industrial processes	Project completion notices or project reports submitted	2026, Q2	On track
2025.CSR4.3	Key programmes for international growth	Publication of the first three calls for applications under key programmes for international growth	2022, Q2	Fulfilled
2025.CSR4.3	Key programmes for international growth	Award of grants for all projects under key programmes for international growth	2024, Q2	Fulfilled
2025.CSR4.3	Key programmes for international growth	Project reports submitted	2025, Q4	On track
2025.CSR4.3	Roadmap for fossil-free transport	Adoption of the Government resolution LVM/2021/62 to reduce greenhouse gas emissions from domestic transport	2021, Q2	Fulfilled
2025.CSR4.3	Roadmap for fossil-free transport	Publication of government decision regarding additional national measures to reduce emissions from domestic transport	2022, Q2	Fulfilled
2025.CSR4.3	Roadmap for fossil-free transport	Reduction of at least 24.5% in emissions from domestic transport by 2025 compared to 2005	2026, Q2	On track
2025.CSR4.3	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding the taxation of employment benefits of mobility	2021, Q1	Fulfilled

2025.CSR4.3	Tax reform for sustainable transport	Entry into force of legislative amendments to the Income Tax Act (1205/2020) regarding an exemption from tax on the charging benefit of a fully electric car or a rechargeable hybrid car	2022, Q1	Fulfilled
