FINANSMINISTERIET

Strategy 2030

# **The Ministry of Finance secures future prospects**

3. MARCH 2022

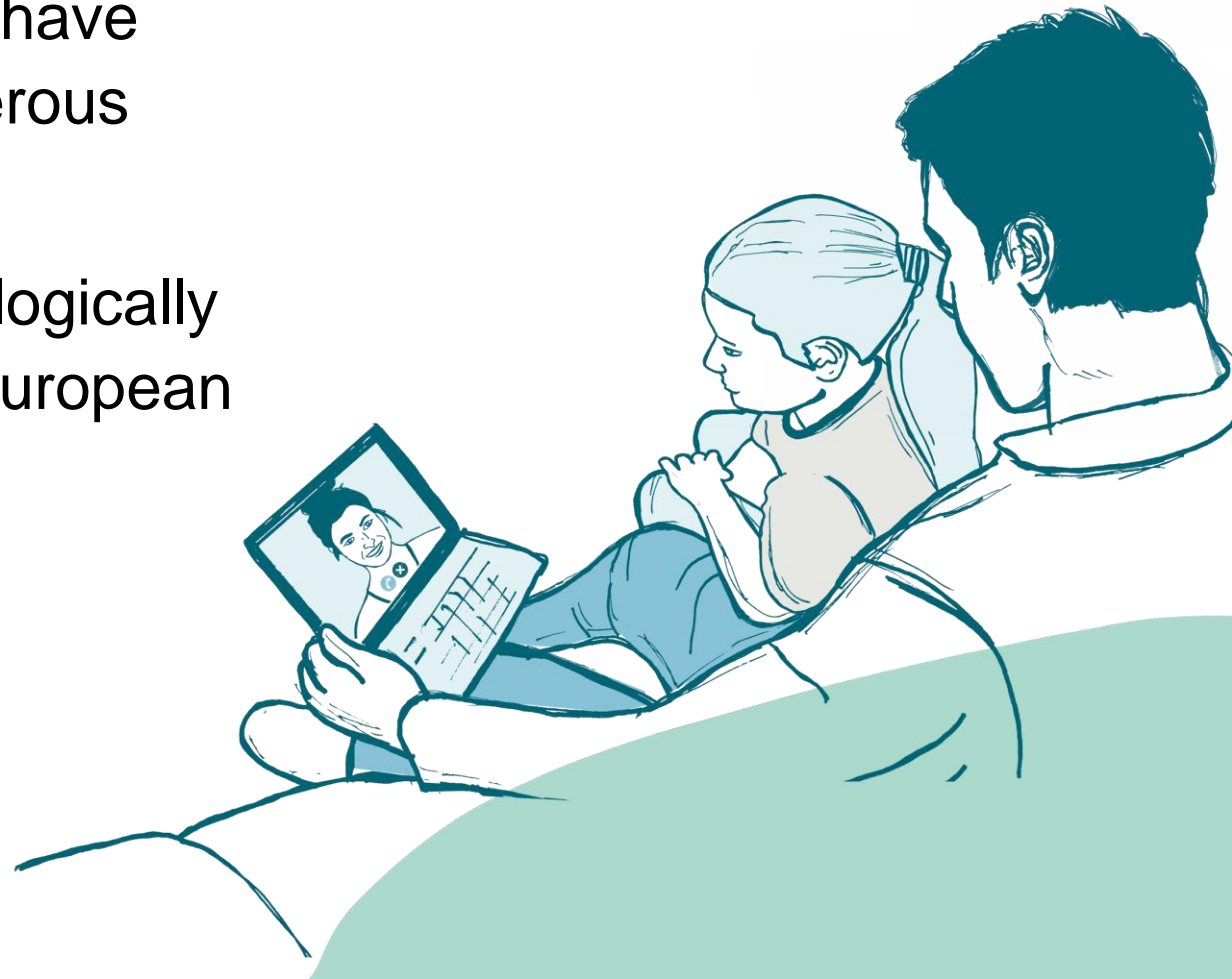

# **THE MINISTRY OF FINANCE SECURES FUTURE PROSPECTS**

**OPENNESS - TRUST - RESPONSIBILITY**

# Our strategic goal

- We ensure that future generations will have financial freedom of choice in a prosperous state governed by the rule of law.
- We work to build an economically, ecologically and socially sustainable Finland and European Union.

# Our strategic tasks

- We ensure the stability of general government finances and make public administration more efficient, effective and adaptable.
- We build the foundation for sustainable economic growth.
- We work towards a people-oriented digital transformation and the better utilisation of data in society.
- We create rules that maintain confidence in the stability, efficiency and fairness of the financial markets.

# Opennes, trust and responsibility

- We take a solution-oriented and cooperative approach to our work.
- We bring together different perspectives and seek sustainable and effective solutions.
- We promote the use of data and decision-making that is based on up-to-date information.
- We use our influence in Finland, the EU and international organisations.
- We value our skilled personnel.

# Changes in our operating environment

- Climate change and biodiversity loss
- Technology and the digital transformation
- Regional disparities, urbanisation
- Demographic change
- Change in public speech, participation of citizens
- Data and the data economy
- Impact of geopolitics on the economy
- Transformation of work
- Immigration and migration
